PROFILE

Passionate about building scalable, responsive web apps using React, Node.js, and modern tools. Strong in frontend and backend workflows, with clean code habits. Experienced mentor and currently pursuing a B.Sc. in Software Engineering at Babcock University.

EMPLOYMENT HISTORY

Jan 2025 - Jun 2025

Frontend Developer, GN128 Solutions

Lagos, Nigeria

- Contributed to frontend features in a PHP-based SaaS product
- Implemented responsive UI components using HTML, CSS, and JavaScript.
- Followed internal structure guidelines and maintained code consistency.

Sep 2023 - Nov 2023

Frontend Intern, Consode Digital Limited

- Designed and implemented user interfaces for SaaS product modules.
- Collaborated with a team to ensure responsive design and scalable code
- Gained hands-on experience with Redux

Sep 2021 - Mar 2022

Intern, ITSkillsCenter

Lagos, Nigeria

- Collaborated with the frontend team to develop and enhance user interfaces for a drag-and-drop website creation platform
- Assisted in optimizing website performance and responsiveness
- Gained practical experience in HTML, CSS, and JavaScript

PROJECTS

April 2025 - Present

ClaspCRM – Full-Stack CRM Web App

Personal Project

- Built a modular Full-Stack CRM using Next.js, NestJS, and PostgreSQL with a focus on maintainable architecture.
- Engineered an RBAC system to manage secure, role-based permissions for Admins, HODs, and Staff.
- Developed departmental dashboards using Prisma ORM to optimize data fetching and system performance.
- Prioritized clean architecture and scalability, designing the backend to be "desktop-ready" for future integration with Electron.

EDUCATION

Bachelor of Science (B.Sc.) in Software Engineering,
Babcock University (In Progress)

Ogun, Nigeria

- Final Year Project:** Design and implementation of a real-time voice call translation system using NLP techniques.
- BUCC Dev Team:** Contributing as a developer within the Babcock University Computer Club, building and maintaining internal software tools.

- **Community & Learning:** Active member of GDG on Campus and earned a Generative AI certification focused on LLM integration and prompt engineering.
-
